

6054 Filter (Ammonia)

MAIN FEATURES:

- **Lightweight** - 100g (nominal)
- **Low breathing resistance**
- **Good balance** of weight on face
- **Excellent field of vision** as a result of unique trapezoidal shape
- **Bayonet fitting** ensures precise & safer locking
- **Versatility:** can be used on all 3M 6000, 3M 7000 & 3M 7500 Series Half Masks and Full Face Masks
- **Class K1** gas/vapour filter

APPLICATIONS:

The 3M™ 6054 filter can be used in industries where excess levels of ammonia vapours are present in the workplace atmosphere:

- Fertiliser manufacture
- Refrigeration
- Paint manufacture

NOTE: If there is a need for particulate protection, fitting of the 3M particle filter - P1 (3M 5911), P2 (3M 5925) or P3 (3M 5935) and the 501 retainer over the 6054 will give a combination ammonia / particulate filter.

This will be capable of providing protection against dusts, mists and fumes as well as ammonia.

APPROVALS:

The 3M 6054 filter has been tested and meets the requirements of AS/NZS 1716-1994

The 3M 6054 filter has been classified as a K1 gas/vapour filter and is thus able to be used for protection from ammonia and organic ammonia compounds. It is approved for use against these gas/vapours at levels up to ten times the Exposure Standard on a half face mask and up to 50 times the Exposure Standard on a full face mask OR up to a maximum of 1000ppm whichever is lower.

COMPATIBILITY:

This filter can be used on the following 3M respirators:

- 3M 6000 series Standard half face respirators (6100 small, 6200 medium and 6300 large).
- 3M 6000 series Drop Down half face respirators (6100DD small, 6200DD medium and 6300DD large).
- 3M 7500 series Silicone Premium half face respirators (7501 small, 7502 medium and 7503 large).
- 3M 6000 series Full face respirators (6700 small, 6800 medium and 6900 large).
- 3M 7000 series Full face respirators (7800S medium and 7900S large)

INFORMATION:

The 3M 6054 filter is one of the 3M 6000 series of filters that are applicable for use in a range of gas/vapour environments. With the appropriate particulate filter added, protection against particulates can also be obtained. The 3M 6000 series of filters include:

6035	P2/P3 Particulate filter
6051	A1 (Organic vapours)
6054	K1 (Ammonia)
6057	A1B1E1 (Inorganic & Acid Gases)
6059	A1B1E1K1 (Multi Gas)
6075	A1Form (Organic vapours & Formaldehyde)
6096	BAusHgP3 (Chlorine, Mercury & Particulate)
6098	AX (Organic vapours)
6099	A2B2E2K2P3 (Multigas & fixed P3 Particulate filter)
