3M™ Perfect-it™ III Fast Cut Plus Compound 50417

Our best just got better – new 3M™ Perfect-it™ III Fast Cut Plus Compound is a fast acting liquid abrasive that removes sanding scratches from refinished or original paintwork and helps achieve a superior high gloss finish.

- **Fast cut-rate performance**
- **Superior high gloss finish**
- **Quick and easy clean-up**
- **Easy to see when job is completed**

3M™ Perfect-it™ III Fast Cut Plus Compound

Significant improvements in finish quality and speed are achieved with the new 3M Perfect-it III Fast Cut Plus Compound. Coupled with simplicity and ease of use, the new product gives distinct performance advantage.

Fast Cut Plus can be used with or without water but is ideally applied using a 3M Perfect-it III Compounding Pad 09550 on an electric or air-fed polisher (1500-2500 rev/min).

With minimal sling and vastly improved clean-up performance, the compound efficiently removes sanding scratches from all paint finishes including both fresh and aged HS paint.

For best results, complete the process by polishing with 3M Perfect-it III Extra Fine Compound 80349 using a High Gloss Polishing Pad 09378.

For scratch resistant clear coats, use Fast Cut Plus on a Wool Compounding Pad 01927 followed by Extra Fine Compound on the orange Compounding Pad.

A wipe over with a 3M Perfect-it III High Performance Cloth 60668 cleans up quickly without scratches or smears.
