Mirka® Cordless Sanders

Where convenience meets control.

Spot repairs have never been easier than with Mirka's cordless sanders. Move freely without getting tangled up in cords or hoses. The small, lightweight sanders have brushless motors. Ergonomic design ensures that the tools can comfortably be used for long periods without fatigue.

Cordless sanders are more energy efficient than pneumatic tools. They do not require oiling, which removes the risk of contamination. The sanders deliver consistent performance up to 16 hours in spot repair use. The 10.8V Li-ion battery charges in 45 minutes – so with two batteries, there is no downtime.

Mirka® AOS-B has a 3 mm orbit, whereas Mirka® AROS-B has a random 5 mm orbit for more efficient stock removal. Mirka's state-of-the-art cordless tools have Bluetooth connectivity. Download the myMirka® app to make use of advanced features such as auto-stop function and RPM range management (in-app purchases).
